Infusion Web Store

Infusion Web Store offers you a fast set-up, ecommerce solution that is fully integrated with your Infusion Accounting Software.

As an Importer, Wholesaler or Retailer you have created a substantial business with a significant investment in inventory, a wage bill that comes around all too often and an existing customer base that is demanding even higher levels of product quality and service. You purchased an Accounting package to provide efficiencies in your business, updated your inventory and customer records and continue to search for innovative ways to improve your business.
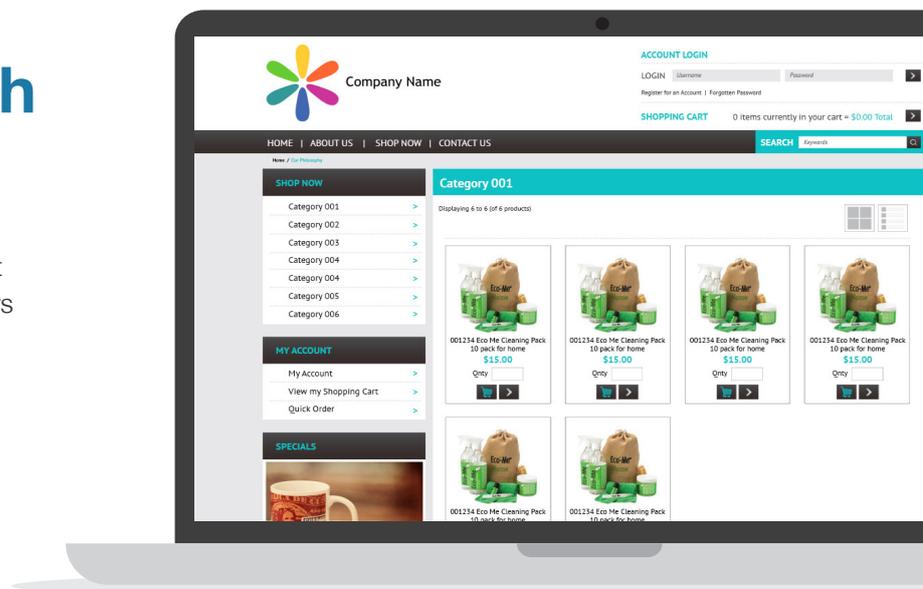

An Infusion Web Store includes:

- Integration with Infusion
- Choice of B2B or B2C Store Styles
- Choice of a Standard Template Design
- Content Management System (CMS)
- No Transaction Fees
- Unlimited Number of Products
- 10GB Data Transfer
- Daily Backup
- Unlimited Number of Products & Categories

- 6 Price Levels per Product & 10 Images per Product
- Infusion Customer Special Pricing
- Search Functionality
- Specials, Loyalty Discounts & Featured Products
- Secure Local Hosting (SSL)
- Multiple Payment Options
- Freight by Area, Weight, Volume, Value, Number of Items
- Product Options (Custom Fields)
- Sales Reps Login / Order Profiles

PLUS, loads more for only **$250*** **per month**

Infusion Web Stores integrate to your Infusion software making your products available 24/7 365 days a year. Let new customers view your product range and place orders whilst EXISTING customers have the option of placing return orders at their price, at their convenience.

Entice customers long after your doors closed for the day. Use your online store to promote new product offerings, run special offers on older product lines and keep your customers well informed and loyal.

* Excludes GST - Conditions Apply

Infusion Web Store

Sell to wholesale and retail customers using an e-commerce solution that integrates with Infusion.

With a Web Ninja powered website that integrates seamlessly with your existing Infusion Software you can have a fully featured web store up and running in no time. With an Infusion Web Store you can allocate pricing policies for wholesale clients upon login, assign different pricing for sales reps and still sell to retail customers within the same site.
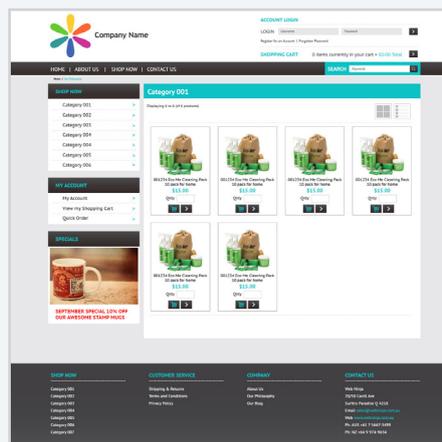

How Infusion Web Stores work

Infusion working with Web Ninja means it is as easy as 1, 2, 3. Get your products on-line and your customers ordering.

1. Add products in Infusion

2. Sell on-line

3. Receive orders

Business is better with integration

No need for duplication of stock creation, maintenance & order re-keying. Simply add your data through your Infusion Software and let your Infusion Web Store do the rest.

Infusion Web Stores integrate to your Infusion software making your products available 24/7 365 days a year. Let new customers view your product range and place orders whilst EXISTING customers have the option of placing return orders at their price, at their convenience.

Entice customers long after your doors closed for the day. Use your online store to promote new product offerings, run special offers on older product lines and keep your customers well informed and loyal.
